ABOUT ME

I'm Daniel, a senior software engineer with a background in design. Right in the beginning of my bachelor's studies I became deeply interested about the gap between technical functionality and user interface design. Since then, I directed my career as a software engineer towards approaching project development from both a technical and aesthetic perspective.

I possess a deep understanding of the React framework and its ecosystem, including popular libraries and tools. My technical expertise also extends not only to other frontend technologies such as TypeScript, Redux, CSS-in-JS, GraphQL, and testing frameworks but also to backend technologies like Ruby on Rails and Node.js. This proficiency enables me to develop robust and scalable mobile applications for a wide range of clients and industries.

WORK EXPERIENCE

Senior Software Engineer

Ambush [01/10/2023 - Current]

City: Austin

Country: United States

- Development of robust and scalable web and mobile applications using React, Typescript and Node.
- Contribute to the creation of visually engaging user interfaces and experiences
- Responsible for code reviews and team code quality ensuring the team's technical skills and continuous improvement.
- Ensure the codebase is well tested and maintained by advocating testing best practices.

Senior Software Engineer

Jobber [01/02/2022 - 30/09/2023]

City: Edmonton

Country: Canada

- Development of robust and scalable mobile applications using React Native, Typescript, GraphQL, Apollo, Jest and Detox
- Development of back-end APIs and GraphQL endpoints using Ruby on Rails
- Maintenance and development of new features for a web application using React
- Develop high-quality software solutions ensuring functionality, maintainability and performance, as well as testing and best practices
- Analysis of complex technical issues
- Responsible for code reviews and team code quality ensuring the team's technical skills and continuous improvement

Senior Software Engineer

Creditas [31/08/2020 - 30/01/2022]

City: São Paulo

Country: Brazil

- Development of robust and scalable mobile applications using React Native, JavaScript, GraphQL, Apollo, Jest and Detox
- Build high-quality software solutions ensuring functionality, maintainability and performance, as well as testing and best practices

- Analysis of complex technical issues
- Responsible for the platform's architecture, performance and developer experience
- Responsible for code reviews and team code quality
- Collaborate with the evolution of the team's technical skills and continuous improvement efforts that impact several teams
- Work with pair programming, feedback and motivation to build a collaborative environment among the squads

Front-end and Mobile engineer

WeFit [31/03/2018 – 31/08/2020]

City: São Paulo

Country: Brazil

- Develop React Native based apps with complex business rules and high-end user interfaces
- Maintain mobile applications with over 1 million users
- Ensure that all technical solutions were aligned with the business strategy and understanding the impact of product-related initiatives to end-users
- Provide technical leadership to teammates through coaching and mentorship

FullStack Engineer

Knowe [30/04/2017 – 09/2017]

City: São Paulo

Country: Brazil

- Develop Javascript based web application that provided real-time video and chats experiences
- Plan and managed the phases of the development life cycle of the software
- Analyze feedback data provided from end-users, architects, and tech leads
- Work alongside a cross-functional team with agile methodologies in the workflow

Front-end Developer

Forseti [31/07/2016 – 30/01/2017]

City: São Paulo

Country: Brazil

- Prototype web applications using AdobeXD and Sketch
- Develop web applications using HTML, CSS, Javascript, and PHP

Web Developer

Deevo [31/01/2017 – 30/04/2017]

City: São Paulo

Country: Brazil

- Develop web applications for distance learning using JavaScript and Sass
- Develop internal frameworks

EDUCATION AND TRAINING

Baschelor's Degree in Design

Mackenzie [01/01/2012 – 31/12/2015]

City: São Paulo

Country: Brazil

Website: <https://www.mackenzie.br/universidade>

LANGUAGE SKILLS

Mother tongue(s): **Portuguese**

Other language(s):

English

LISTENING C1 READING C1 WRITING C1

SPOKEN PRODUCTION C1 SPOKEN INTERACTION C1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

DIGITAL SKILLS

Javascript / Typescript / React.js / React Native / Docker / HTML / CSS / Ruby / Ruby on Rails / SQL / Figma / Git / REST e GraphQL API
